

165 Bale Hugger

# PICK AND ROLL

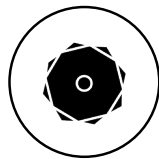

*3-point bale pick-up*

Give your tractor a lift with the 165 Bale Hugger by DewEze. This 3-point attachment features parallel squeeze technology to securely grasp the sides or ends of the bale from 86 to 45 inches, with spinners. Designed for range feeding, moving and unloading bales, or when your truck can't reach your herd during wet weather. The durable, heavy-duty frame handles round bales up to 3,000 lbs. Easy installation and trouble-free performance, backed by the leader in big bale hay handling equipment.

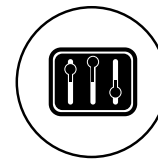

## THREE POINT HITCH

Requiring only a single hydraulic remote, the 165-I is compatible with cat. 1 and cat. 2 tractors.

## PARALLEL SPINNERS

Unroll hay quickly and efficiently, minimizing the negative impact on pastures.

## OPERATING CONTROLS

Utilize your tractor's operator-friendly controls to raise and lower arms or grab bales in a line.

660 Bolt-on

## EFFICIENCY MEETS VERSATILITY

*from flatbed to feed wagon*

Quickly convert your truck bed into a seasonal tool for handling and feeding large round bales with this bolt-on system by DewEze. The parallel squeeze technology cuts down on choring time, staying level with the ground while unrolling. Haul up to two bales at a time, saving trips between pastures.

Power, precision feeding and flexibility - that's DewEze.
