

*“Operating a DewEze RT Bed is one less axle to worry about.  
It’s the most efficient work truck you can put in your fleet.”*

Mike Olberding - Operations Manager | DS&O Electric Coop, Solomon, KS

*“The Parallel Squeeze functionality gives us the flexibility to  
haul a variety of reels - from one large reel to two small.”*

Ron Farnsworth - Owner | Farnsworth Fabrication, Altonah, UT

# DewEze®

RT REEL TRANSPORT

## 3,100-Pound Capacity

for Reel Hauling, Take Up and Payout

# DewEze®

# LOAD. HAUL. AND UNWIND.

# WELCOME TO THE NEW WORKFORCE

The **Reel Transport Bed** is an efficient, self-loading reel lift designed to load and transport utility wire or fiber without the need for a trailer. It offers integrated flow control to hydraulically take up and payout cable or wire in a streamlined one-man operation. Engineered with heavy-duty steel construction and trouble-free performance, you'll have peace of mind knowing DewEze beds are backed by superior service. **Building beds that last and hold their value — that's durability.**

REEL TRANSPORT

**Risers & Reel Bar\***  
A pair of risers, dual lift cylinders and an arbor allows the RT Bed to easily load reels.

**Spindle System\***  
The hydraulically controlled arms, reaching from 28 to 53 inches, eliminate the need for an arbor to get a grip on a range of spools.

**Overspin Brake**  
*(Available with Spindle System Only)*  
An integrated brake with up to 500 pounds of drag helps prevent backlashing while pulling.

**Hydraulic Controls**  
*(Available with Spindle System Only)*  
Reduce manpower to safely take up or payout cable or fiber hydraulically with this variable speed, removable accessory.

**Go Wireless**  
Hydraulic power at the touch of a button. The DewEze wireless remote gives you untethered control within a twenty foot radius of your bed.

\*The RT Bed can be ordered with either the spindle system or risers and reel bar.

## ACCESSORIES:

**Transport on One Less Axle**  
Hauling reels on an RT Bed saves you the time, money and hassle of hauling them on a trailer.

**Work Safely & Efficiently**  
The hydraulic controls of the RT Bed allow one man to safely and reliably take up or payout fiber or cable.

**Do More Work With Your Truck**  
A workshop on wheels, the DewEze RT Bed helps you do more with less. Accessories are available for a variety of hauling and lifting jobs beyond reels.

**Lift up to 3,100 Pounds\***  
Powerful hydraulic cylinders give the RT Bed a lift capacity of 3,100 pounds for picking up utility wire, fiber, innerduct reels, hand holes, frame poles and more. \*Do not exceed GVWR

**Toolbox Storage**  
Stow and tow with under/above body and across-the-bed storage to keep your equipment organized and safe.

**Tool Circuit**  
Maximize your hydraulic system's productivity by simply tapping into the bed's tool circuit for a versatile power solution.

**Work Lights**  
Don't get caught in the dark — plug and play a fixed or swing light kit to light the way for a safer work environment.

**Dump Box**  
Extend the versatility of your Reel Transport bed by adding a dump box to haul and dump dirt, sand or other material.

Since 1968, DewEze has built a reputation by providing our customers with the highest quality equipment, made by skilled craftsmen in America's Heartland. Our experienced dealer network ensures your success with after-sales service and support with dozens of locations nationwide better to serve you.
